- 2023.01 Launched deodorant brand "Seasonal Air"
- 2023.02 Certified the establishment of a research center
- 2023.03 Registration of foreign trade business
- 2023.04 Established overseas branch in Russia
- 2023.05 Established overseas branch in Australia

N GLOBAL

Ltd. started by directly manufacturing and distributing cosmetics, shampoos, detergents, and health functional foods while considering everyone's safety and environment.

We also manufacture colorless, odorless, non-irritating, and alcohol-free eco-friendly disinfectants and deodorants using our patented **chlorine dioxide** processing technology.

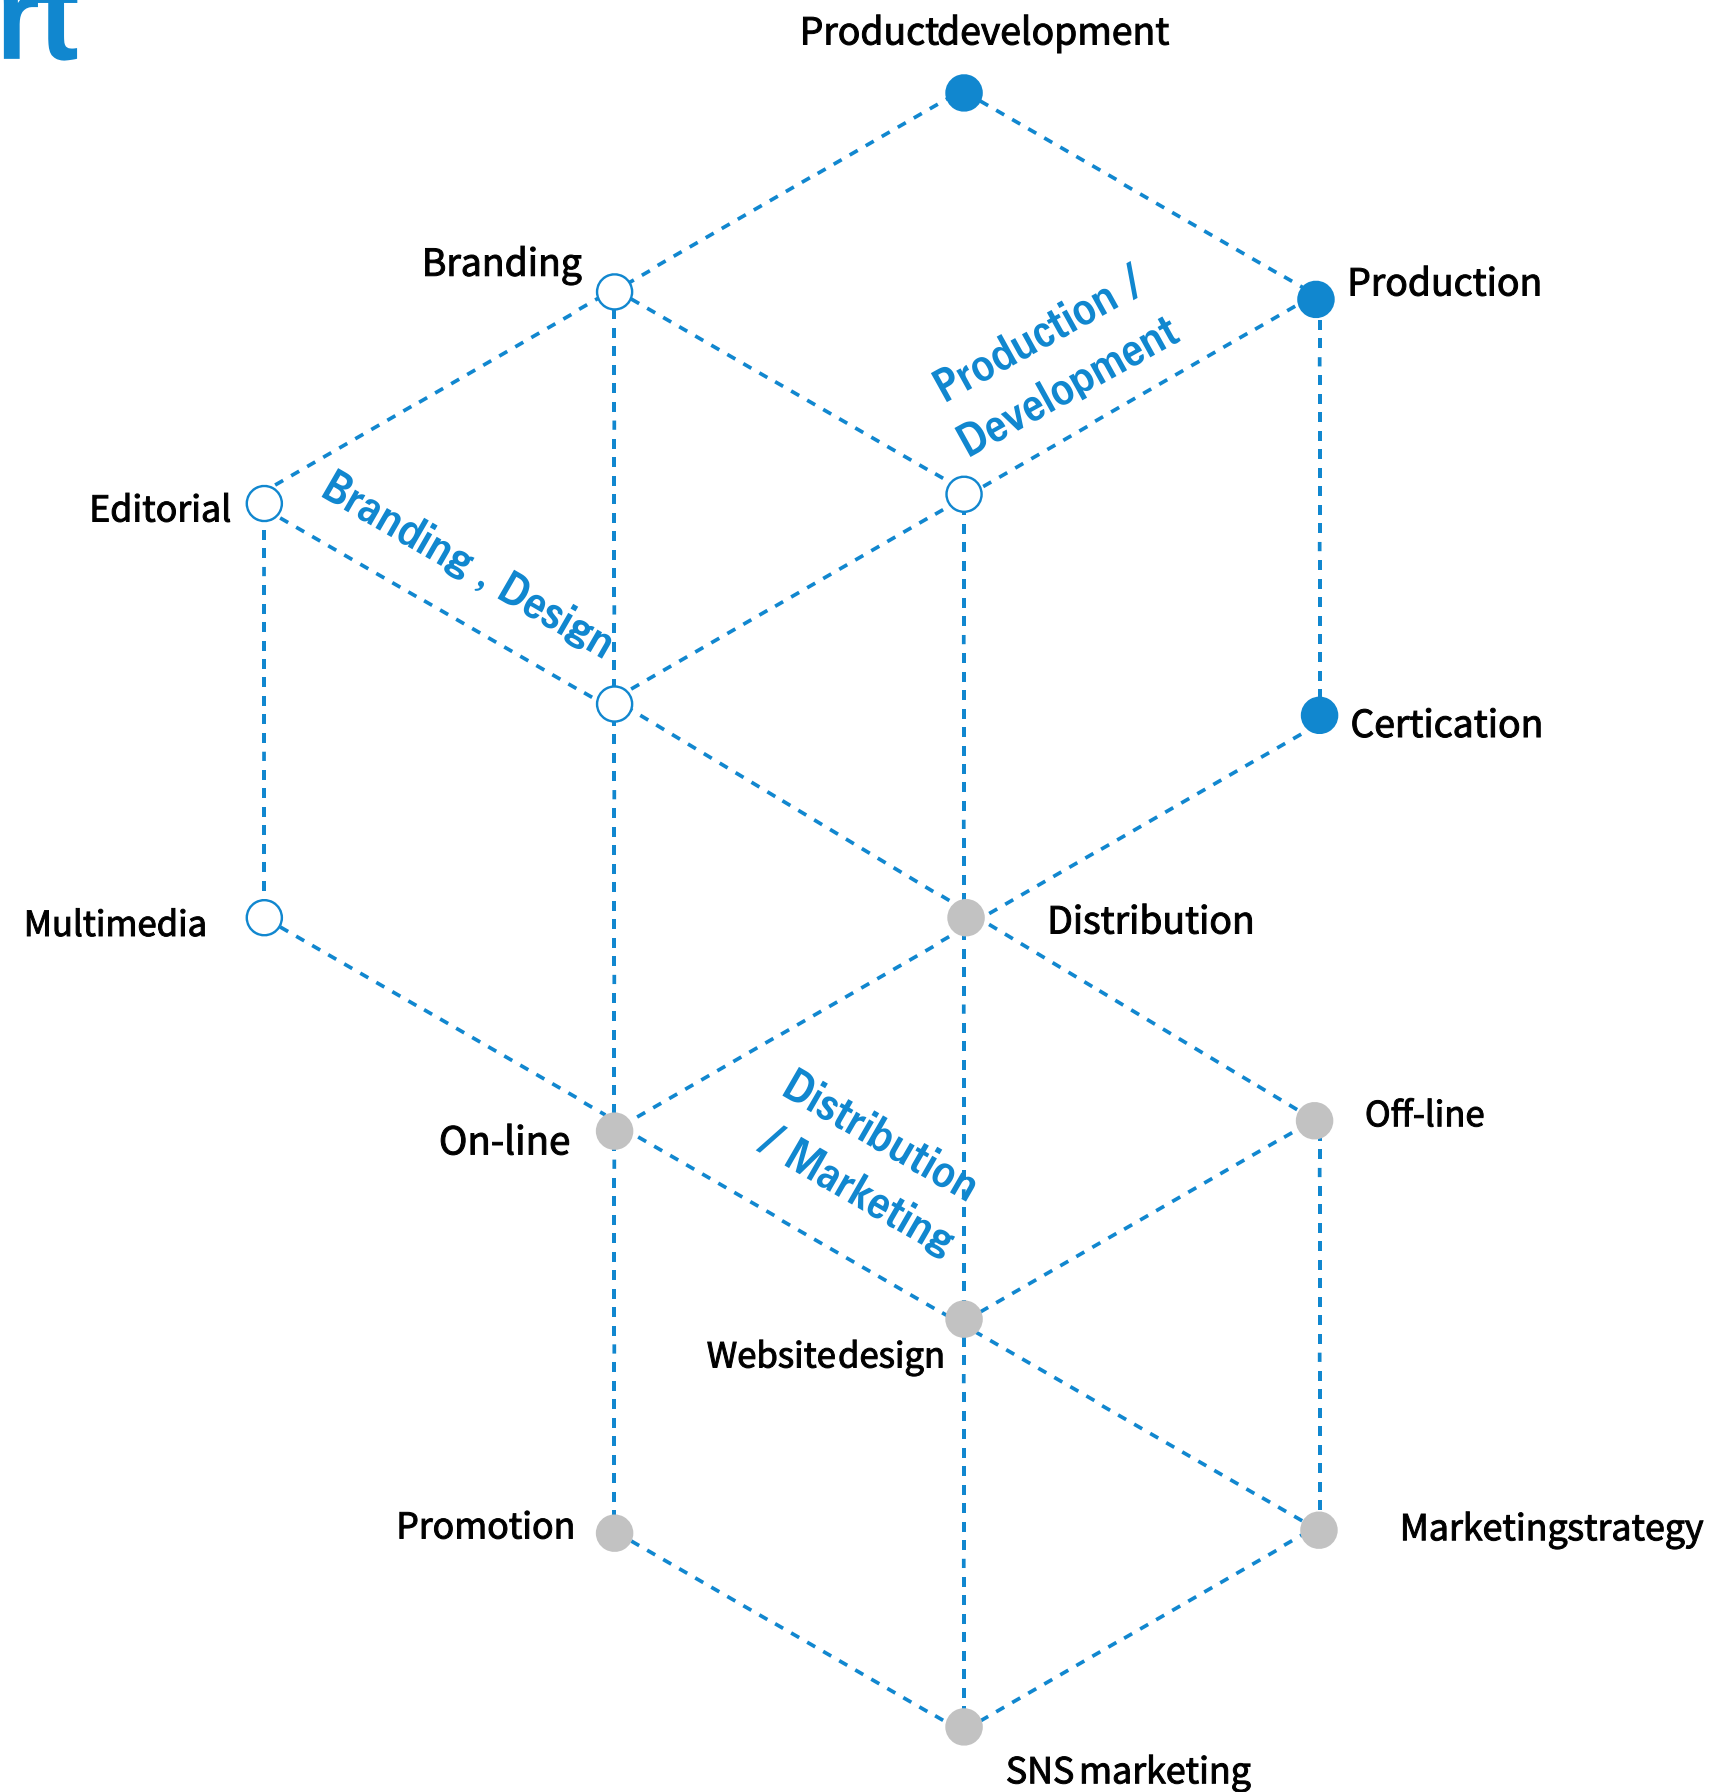

It is the **only company in Korea** that utilizes the water-solubilization technology of silicon, an eco-friendly mineral.

In addition, it is possible to expand business uses with a manufacturing method that is harmless to the human body, so it is possible to sterilize, disinfect, and deodorize medical, veterinary, fishery, water treatment, daily necessities, food, and eco-friendly pesticides. Sterilization, disinfection, and deodorization have become possible.

We will strive to develop into a reliable company by continuing to research and develop so that we can present products with excellent performance.

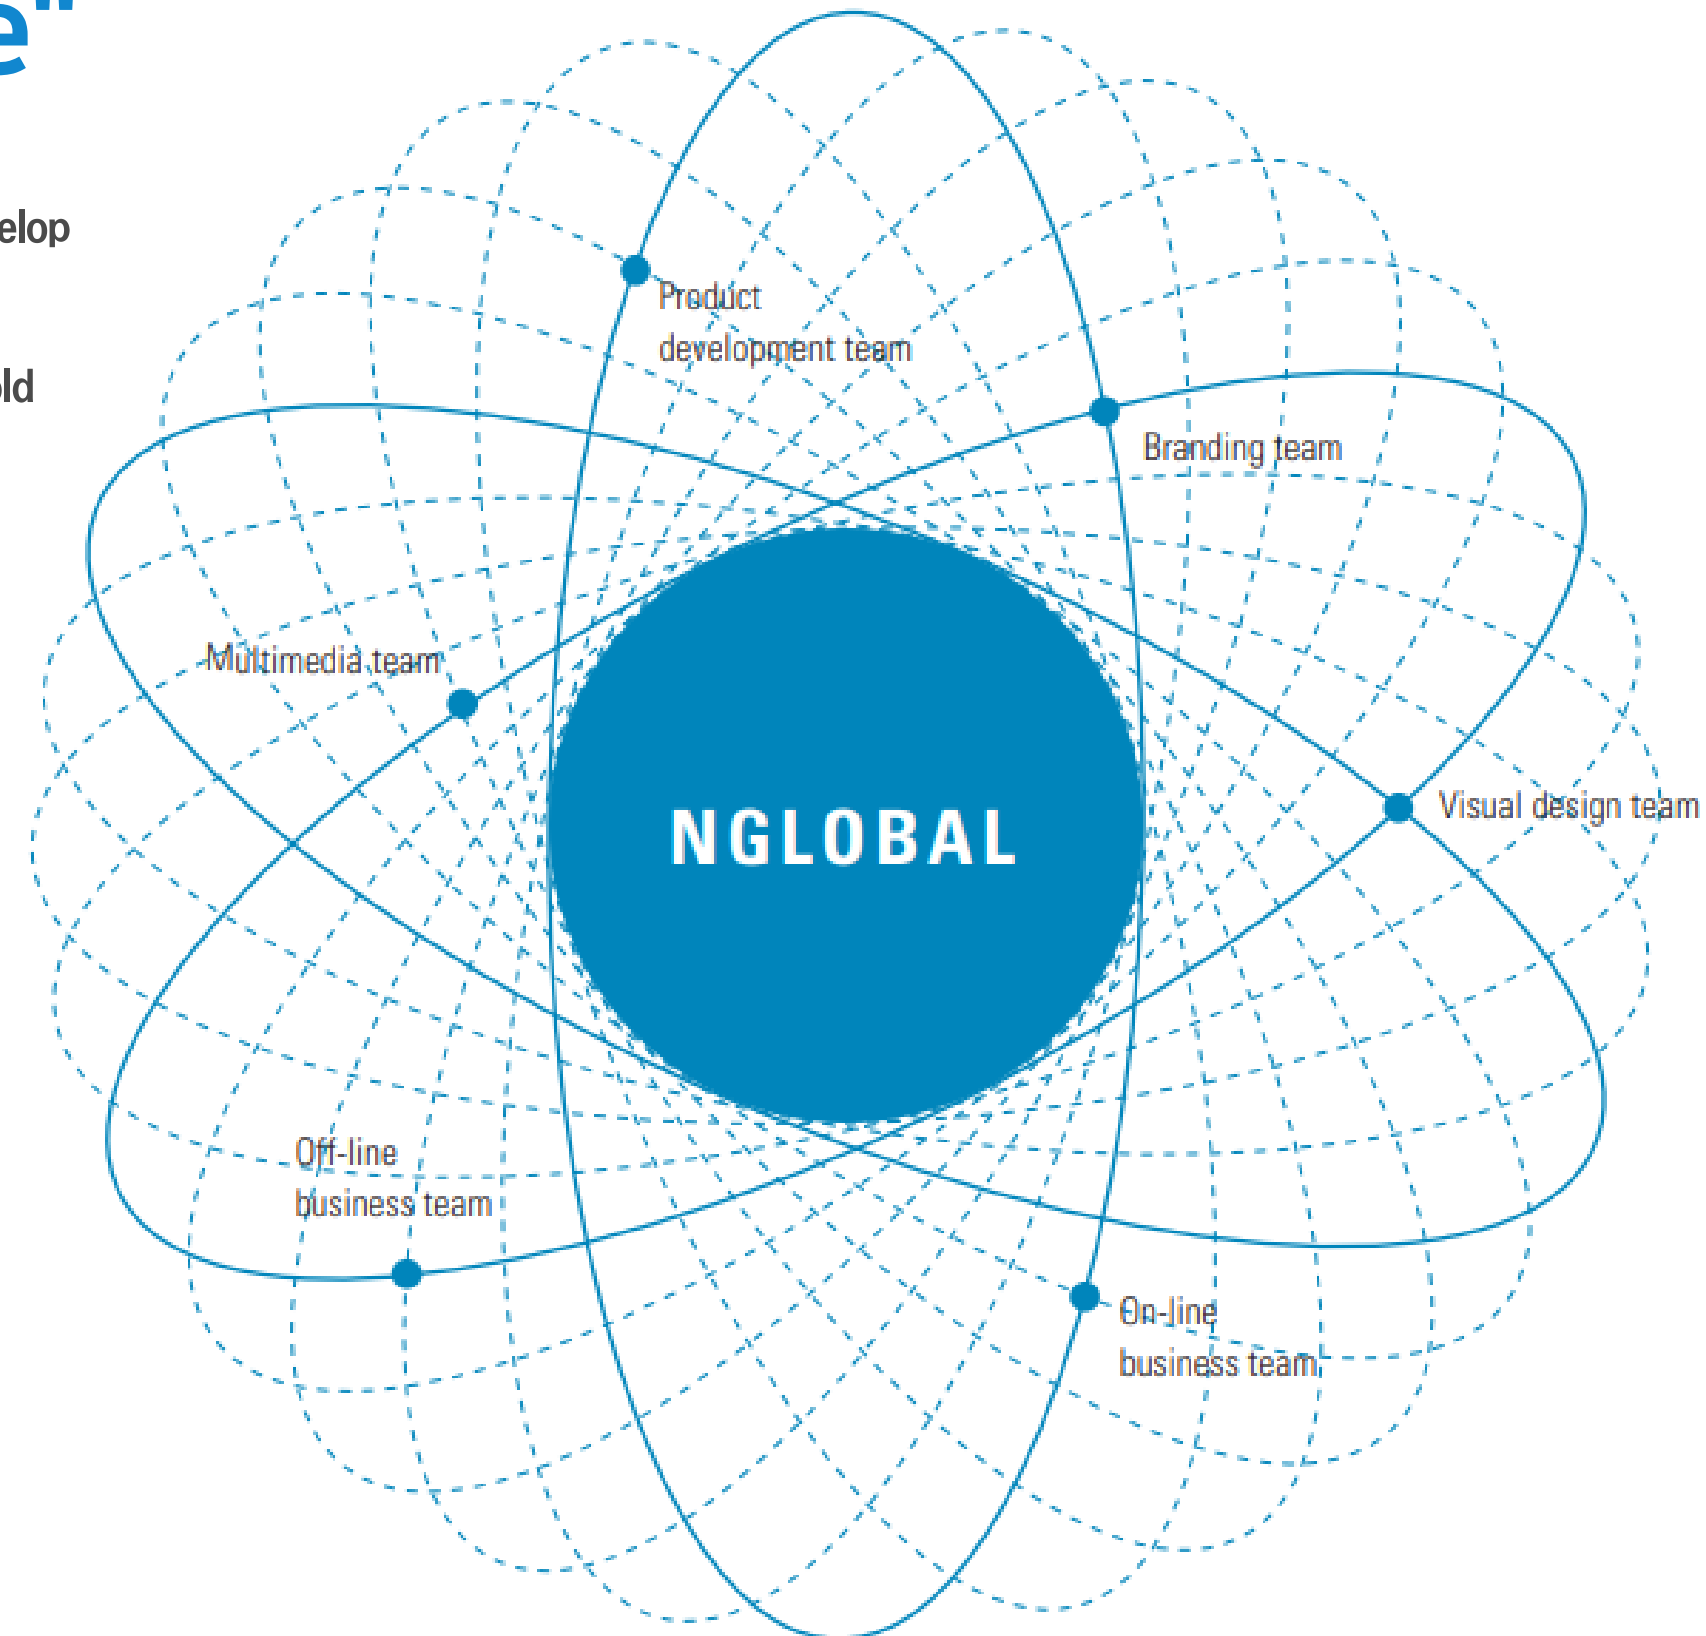

N Global is here to support your healthy life

N Global doesn't stand still, but is constantly seeking newness and reaching out to the world

Companies turning "complicated" into "simple"

We are a company that is always thinking and researching about new ways to develop without being complacent. Our goal is to gain the trust of our customers by understanding what they want from the customer's point of view, breaking the mold with our own colors, and finding differentiation.

We are expanding our ODM/OEM business based on know-how derived from our research and development,

and expanding our functional research business for food ingredients to secure original technologies.

production process

N Global is a domestic manufacturer through technology partnerships.
and manufactured in GMP-acquired factories for the best quality and safety.
For healthy products that customers can trust and choose
We sell only carefully selected products through more thorough and rigorous tests and certifications.

Air deodorant brand | Featured Products Seasonal Air Unscented / Lavender Scent

Trademark application number (40-2021-0265232)

< Safe and Effective Space Deodorizer Without Ethanol >

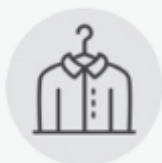

A premium deodorant brand that opens the season with fresh air [Seasonal Air]

Chlorine dioxide water, the main ingredient of Seasonal Air, is a food additive with a high A1 classification by the WHO.

Seasonal air can eliminate various odorous bacteria through the sterilization power of chlorine dioxide stabilized by the emulsion method.

Usage Capacity

60ml, 500ml, 4L, 10L / Other capacities can be created

Fiber,Fabric Beds, fabric furniture Interior Space Objects Restrooms Kitchen Objects Pet supplies Eliminate odor-causing bacteria Car, Seat

Air deodorant brand | Seasonal Air Spatial Series (6 pieces)

For Automotive

- Odors in a sealed car, even when ventilated
- When I turn on the air conditioning in my car, the smell is overpowering.
- I want peace of mind for the whole family

Tons of bacteria and mold in a sealed car. Are you going to leave it like this?

- Sterilization, deodorization, and disinfection all at once
- Issuance of inspection number for household chemical products subject to safety verification

For Kitchen

- I'm grilling pork belly at home and it smells bad.
- Is there a deodorizer for the kitchen that doesn't have a lingering scent?
- I want to be able to use it safely for the whole family.

Ventilation alone doesn't seem to make the food smell any better. Every time I open the fridge door, I smell a strange odor.

- Sterilization, deodorization, and disinfection all at once
- Issuance of inspection number for household chemical products subject to safety verification

For Restrooms

- Bathroom odors that won't go away no matter how many times you clean them.
- I'm embarrassed when I come home from a big job and the odor is too much.
- I want to remove the sewer odor and water stain odor once and for all.

Have you ever sprayed something and had it backfire on you? No more embarrassing odors!

- Sterilization, deodorization, and disinfection all at once
- Issuance of inspection number for household chemical products subject to safety verification

For Air conditioners

- Unreliable air conditioning at home and in the car
- I want to be able to manage my air conditioner without a professional.
- I want peace of mind for the whole family

Harmful bacteria and mold in your air conditioner every day. Are you going to leave it alone?

- Sterilization, deodorization, and disinfection all at once
- Issuance of inspection number for household chemical products subject to safety verification

For Textiles

- My closet has an unpleasant musty odor.
- Is there a special deodorizer that won't spoil the fabric?
- I want to take care of carpets or curtains that can't be washed frequently

Do you have a hard time ventilating your dressing room or closet? Maybe you're constantly closing the door and your clothes smell unpleasant...

- Sterilization, deodorization, and disinfection all at once
- Issuance of inspection number for household chemical products subject to safety verification

For Shoes

- My sneakers smell horrible after a workout.
- I don't want to have to take off my shoes because of the odor.
- My front door shoe rack always smells musty.

Give your non-washable shoes and sneakers a daily treatment with Seasonal Air's unique antibacterial and deodorizing ingredients for easy, hassle-free care!

- Sterilization, deodorization, and disinfection all at once
- Issuance of inspection number for household chemical products subject to safety verification

For Pets

As a pet owner, I have a lot of questions and concerns about choosing a deodorant.

*Is there a deodorant that is safe for humans and pets?
Why do I have repeated potty breaks even after spraying
a nice scented deodorant ?*

Seasonal Air Pet Deodorizer is the answer!

- Fragrance-free, colorless, alcohol-free, preservative-free, non-irritating, environmentally certified
- Superior sense of smell detects urine odor even when artificial fragrances cover the smell
Eliminates 99.9% of odor sources with powerful unscented deodorization and deodorization without covering odors with fragrance

For Sports

Sweaty post-workout odor
Odors from various sports shoes
Hard-to-wash sports equipment and supplies

*What to do with hard-to-wash sports gear and supplies?
I spray scented deodorant on my sweats and they smell even weirder.*

- Covering odors with fragrance is only temporary!
Seasonal Air sports unscented deodorant eliminates odor-causing bacteria.
- Thanks to our special processing technology, it will not corrode even if you spray it on any material.
- No need to worry about discoloration when used on any sports clothing!
- Sterilization and deodorization in one go

Deodorant Brand | Seasonal Air Activated Charcoal

Deodorant.
Moisture Remover

FDA Registration

Household disinfectant (for general objects, sprayer type), COVID-19 self-disinfection disinfectant (can disinfect the waste of COVID-19 patients or self-isolators. Using effective COVID-19 ingredients designated by the Ministry of Environment), cookware/food surface sterilization, agricultural use (liquid fertilizer), etc. We manufacture and distribute various sanitizers and use only food additives as raw materials.

2020. 3. 30. List N: Disinfectants for Use Against SARS-CoV-2 | Pesticide Registration | US EPA

An official website of the United States government.

We've made some changes to EPA.gov. If the information you are looking for is not here, you may be able to find it on the EPA Web Archive or the January 19, 2017 Web Snapshot.

List N: Disinfectants for Use Against SARS-CoV-2

Other COVID-19 Resources

- EPA's Coronavirus Site
- CDC's Coronavirus Disease 2019 Site
- CDC's Cleaning and Disinfection Recommendations for COVID-19
- NPIC's COVID-19 Virus Factsheet

List N includes products that meet EPA's criteria for use against SARS-CoV-2, the novel coronavirus that causes the disease COVID-19. When purchasing a product, check if its EPA registration number is included on this list. If it is, you have a match and the product can be used against SARS-CoV-2. You can find this number on the product label – just look for the EPA Reg. No. These products may be marketed and sold under different brand names, but if they have the same EPA registration number, they are the same product.
